

**The road to recovery  
starts at Vernon Home.**

## Rehabilitation services

Illness or injury does not mean the end of a productive life. Our enhanced rehabilitation program can make the difference. In partnership with Genesis Rehabilitation Services, we enable seniors to receive a full spectrum of care that meets our high standards for personal caring and professional quality.

- ▶ Physical therapy
- ▶ Speech therapy
- ▶ Occupational therapy
- ▶ Fully licensed and certified
- ▶ Inpatient or outpatient

### Right here in Vernon

Our rehabilitation center is located in our Vernon Green facility and is staffed by highly trained specialists who develop individualized programs for each patient employing the best therapeutic techniques.

### Who can we care for?

Rehabilitation programs can be effective after events like stroke, bone breakage and heart attacks. They can help manage and mitigate conditions like joint disease, Parkinson's disease and dementia. Whatever the problem — injury, surgery or health condition — we provide answers at every step, from honest assessments through realistic programs that help each person regain his or her potential.

### Partnering with a proven leader

Genesis Rehabilitation Services brings expertise and experience to quality-conscious senior living centers like Vernon Home. It is a partnership that enables us to provide all the qualities we value — personal caring, professionalism and service consistency — while keeping service within reach of most everyone.

Genesis is headquartered in Kennet Square, Pennsylvania and has been selected by more than 700 nursing care and other facilities across the country to provide exceptional rehabilitative care.

An outstanding rehabilitation program is yet another reason why Vernon Home continues to build on a long-standing reputation for excellence. Contact Karen Hammond, OTR, to learn more.
